ACADEMIC

QUALIFICATIONS

Bachelor of Science (Hons)
University of Newcastle, 1993.

Bachelor of Engineering (Mining)
University of New South Wales, 1981.

MEMBERSHIP OF SCIENTIFIC SOCIETIES

Australasian Bat Society (1992-2023)
Royal Zoological Society of New South Wales (Scientific Member) (1980-2018)
Australian Mammal Society (1982-2018)
Ecological Consultants Association of NSW (Conception-2019)

PROFESSIONAL EXPERIENCE

Extensive survey and research of bats has been undertaken throughout Australasia from 1980 until the present. This has included the survey of bats during private expeditions in Queensland (1982, 1986 & 1988), the Northern Territory (1988), Lord Howe Island (1986-2021) and Tasmania (1992). Bats have also been surveyed during expeditions of the Australian Geographic magazine to the Gulf of Carpentaria in 1990 and the Kings Canyon area of the Northern Territory in 1992. Extensive bat survey of eastern New South Wales and in particular the Hunter Valley has been undertaken from 1980 to the present. Substantial field work has also been undertaken on Cape York and Melanesia including Vanuatu and the Solomon Islands. I have also assisted research of bats in Vietnam, Thailand, Malaysia, Indonesia and New Zealand.

December 1992 to 2019

BAT SPECIALIST
FLY BY NIGHT BAT SURVEYS PTY LTD

Bat surveys have been undertaken and reports prepared for environmental impact statements, fauna impact statements and species impact statements. Over two hundred smaller reports have been prepared on bat surveys undertaken for environmental, fauna and species impact statements throughout New South Wales during this period. Microbat monitoring has been undertaken in forest remnants at Hume Highway bypasses at Holbrook and Tarcutta between 2010 and 2015. Longterm monitoring of microbats has been undertaken at two open cut coal mines in the Hunter Valley, NSW.
